Science Fair Think Sheet 1 Support

A free write is when you write down everything that comes to mind without pausing, self-censoring, correcting spelling, etc. Free write your ideas on science fair topics. Write down as many topics as you can come up with. This is just the planning stage and no idea is insignificant!

Once you fill up this page, start to narrow down your topic and pick the top 3 topics that interest you. Run these three by your adult sponsor and get feedback. Together, with your adult sponsor, agree on 1 topic that you are passionate about.
